I can not see the bottom of the video. HERE's the link to my Dsub Download pages Mkv 2012 2013 2014 2015 2016 2017 2018 2019. 3 1. (2019) Movie Dsub Download. 2019 (2019) Movie Download Dsub, 2019 (2019) Movie MKV download, MKV Dsub download,.Dsub is Dummy Subtitle for Movie in MKV files.. We will be there with the Free Dsub to MKV Converter in few minutes to provide you a Free Dsub to MKV conversion tool. MKV is a container file format developed by Microsoft for digital video content. It is a format that can support various digital formats including Q: Obscure problem with Node.js and Express I am trying to set up my first Node.js application and I'm running into a bug that I just can't get my head around. I've created a very simple REST application using Express. I've been trying to create a very simple route like this: `app.get('/test', function(req, res) { console.log(req.query); console.log("value: ", req.query.x); res.send('hello world'); });` When I try to make an HTTP request to this route like this: `curl -X GET ""` I get back the following error: `curl: (7) Failed to connect to localhost port 3000: Connection refused` However, when I look in the terminal I can see that the request was successful, with the request being the GET request I'm making: `GET /test HTTP/1.1` I can see the request has gone through, as it's all here in the terminal. So why is it failing, and what am I missing? Thanks in advance for any help. UPDATE: I added the following to my app.js file: `app.configure(function(){ app.set('views', __dirname + '/views'); app.set('view engine', 'jade'); app.use(express.logger('dev')); app.use(express.bodyParser()); app.use(express.methodOverride()); app` 82157476af
